Subject: FW: Westlake stories

FYI, three stories came out overnight. KSDK did not run your statement but the other two did. I'm wondering if we might be able to get you on a the St. Louis Public Radio station Thursday morning. I have David Bryan looking into show options so we can give you a specific proposal. It would be a good way to launch your stakeholder calls later in the day. Hattie is helping me finalize the stakeholder list and we will get you a copy for review before long today.
